**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

After over 10 years with ATT, I decided to switch to Sonic earlier this year with some encouragement from my children who actually did some extensive research on different plans that were being offered by broadband carrier. To my surprise Sonic was the most competitive with superior speed.

What finalized my decision was Sonic's customer service department who was extremely patient with all the questions I asked. In fact I added my phone line and still saving money. ATT could not offer the same speed in my area plus the pricing for the bundle was so much higher. Competition is extremely vital as I always have known that ATT and Comcast offered their high rates because no other carrier was penetrating these areas.

I am glad a carrier such as Sonic enter the market and able to serve my area in San Francisco. I will only hope they will be able to expand there services to other areas in California.

My children relies on the internet and its speed for their studies and research and I have been extremely please with the results and their compliment to me for switching to Sonic.

Cordially,

Andy
